

# BIKASH GHIMIRE

## SOFTWARE DEVELOPER

An excellent example of a competent programmer who has fluency in numerous programming languages and carries a high attention to detail. I have learned the intricacies of web development, worked as a Web developer and Game Developer. In all respects, I could be a great addition to a company looking for an ambitious and highly motivated team member who likes to think outside the box.

## EXPERIENCE

### SOFTWARE DEVELOPER TRAINEE

#### Metso | Helsinki, Finland | APR 2023- AUG 2023

- Write clean, well-documented, and maintainable code(web components) using HTML, CSS, React, and Typescript programming languages.
- Continuously testing and debugging, and adding new features in software applications(codebase) to identify and fix any issues or bugs.
- Collaborate in code reviews to ensure code quality and adherence to coding standards
- Continuously research and adopt new technologies, tools, and best practices to improve software development processes.
- Participate in the entire software development lifecycle, from conception to deployment and post-release maintenance.
- Participate in Stand-up, Collaborate with the agile team to refine user stories, and participate actively in sprint planning and review meetingsProactively seek feedback from end-users, designers, product teams, and stakeholders to enhance the software's usability and functionality.

### WEB DEVELOPER

#### Funky Salsa Oy| Helsinki, Finland | AUG 2022- FEB 2023

- Developed website from scratch using modern features and practices.
- Optimizing web pages for maximum speed and scalability, maintenance work, bug fixing, continous maintenance
- Hands on experience with PHP; JavaScript, and TypeScript.
- a solid understanding of cross-browser compatibility issues, and ways to work.
- Handling backend as well

### FULL STACK DEVELOPER TRAINEE

#### Integrify Oy Helsinki, Finland | January 2022- June 2022

- Sharpening competence as a Full Stack Developer by collaborating with other developers on a diverse range of projects and real-life challenges.
- Focusing on front-end development with JavaScript, TypeScript, React.js, Redux in addition to concepts such as accessibility and animations.
- Worked on back-end for web-based applications with framework as Express.JS
- Covering additional concepts such as API development and documentation, unit testing with Jest, SQL, and NoSQL databases , and GitHub.
- Working with DevOps practices (Bash scripting, Docker containers, and CI/CD with GitHub Actions) and Cloud services with AWS.

## EDUCATION

### B.E. IN INFORMATION TECHNOLOGY

#### Centria University Of Applied Sciences |Finland | Feb 2017-Dec 2021
